

We stand resolutely opposed to any hatred towards our fellow Muslims and Jews!

We saw in the news that on Wednesday night there was an attempted arson attack against a Jewish institution. Unknown people had attacked a Jewish institution in Berlin with Molotov cocktails. This is unacceptable! We stand resolutely against violence against our fellow Jews!

Although it is not known who committed the attempted arson attack, it can be assumed that this attack was committed due to the dangerous equation of the state of Israel and its crimes with Jewish people. This is an equation that we and the broader Palestine solidarity movement have always strongly rejected and continue to reject today! This narrative is increasingly normalized here in Germany, both in the media and by politicians, which is particularly dangerous for our fellow Jews. The settler-colonial apartheid state of Israel must not be equated with Jewish life!

Unknown people also tried to set fire to a mosque in Bochum on the same evening. We resolutely oppose violence against our fellow Muslims! Also this anti-Muslim racism, which is cheered on by politics and media, is not to be accepted! Within the framework of this smear campaign against Muslims, attempts are being made to play off the struggles against anti-Semitism and anti-Muslim racism against each other. However we will not allow ourselves to be divided and will continue to fight together with our Jewish and Muslim comrades!

With the German state pushing racist narratives, Muslim migrants are blamed for the growing anti-Semitism by the ruling parties (including the fascist AfD). This is wrong. Even according to the Federal Criminal Police Office, anti-Semitic criminals come mainly from the right-wing extremist milieu.

Currently, there is a political climate in Germany where leading politicians from AfD, to CDU, to FDP, to the Greens, to SPD and Die Linke, call for further surveillance, criminalization and deportations of Arabs and Muslims all in the name of the fight against anti-Semitism.

In order to sweep the never-fully completed denazification in Germany after WW2 under the carpet, anti-Semitism is exported to the "Arab immigrants"! Because Germany was never properly denazified after WW2!

Leading Nazi politicians, Nazi judges, Nazi doctors and other Nazi officials continued to practice their professions without any problems. Some of the largest corporations in Germany increased their fortunes through the Nazi dictatorship! We stand resolutely opposed to any hatred towards our fellow Muslims and Jews!
